Brilliant game but cannot be recommended when crashes occur more frequently each time we try to play.. DO NOT GET THIS GAME, Yes it WAS a wonderful game to play single player or coop, but the devs put out all these "updates" to test the game out for magicka 2, rendering this game useless, between crashing and bugs, they essentially f****d this game up, i suspect so they can force you to fork out more cash for magicka 2. Used to be good when it worked, now it doesn't seem playable for anyone. Do not buy.. Game "was" fun at one point. But now is riddled with bugs and crashes. It's an amazing feeling to have the game crash at the end of each level. The game has been abandoned in a broken state that at some points is next to unplayable.. Boycotting Paradox Interactive for latest greedy actions taken by them.. This would be a 9/10 if it didn't crash every five
